**OUR MISSION:** “To maximize whatever hearing we may have so we can stay connected to family, friends and enjoy activities to the fullest.”

We seek to create awareness about hearing loss so as to reduce the stigma, isolation, and depression that it can cause.

We seek equal access to communication as provided by the American Disabilities Act.

Hearing loss ranges from mild, moderate, severe and profound. We all share many of the same challenges. We schedule a variety of educational programs that will benefit people with hearing loss, their friends, family and those interested in hearing issues.

## You are not alone!

Approximately 20% or 48 million Americans have hearing loss.
